

*Are you new to Canada?
Are you looking to build a
successful career?
ACCES Employment can help!*

Engineering Connections

Engineering Connections helps internationally-trained engineers to find work in Canada. The program provides you with knowledge about Canadian workplace culture, engineering codes and standards, the Canadian project management environment and professional licensing in Ontario. A separate project management component supports you with securing senior level employment that reflects your skills and qualifications.

Program Components:

- One-to-one support from an employment consultant who is knowledgeable about the sector
- Referrals to job openings and connections to employers
- Access to mentors who are professionals in your field
- Recruitment and networking events
- Academic training from a recognized educational institute
- Business and workplace communication training in a Canadian context
- Orientation to your sector in Canada
- Job search support and preparation
- Continued coaching and support after you're hired

Everol Smith came to Canada with more than 20 years of experience as an engineer. He was confident there would be more opportunities in Canada to advance his career. He connected with ACCES Employment, and through the Engineering Connections program, received help and guidance with the job search process. He was inspired by other internationally-trained professionals and the support he received. He says, "My Employment Consultant always told me, 'it's a matter of time - just be persistent.'"

EMPLOYMENT

Making Connections

Why should you choose ACCES Employment?

ACCES Employment programs and services are highly specialized, offering sector-specific training designed to help new Canadians find work in their field. Each program is offered in close consultation with leading employers and academic partners and is designed to enhance (and not duplicate) your existing education.

Our first priority is to help you find full-time, permanent employment that reflects your experience. Over 80 per cent of our participants find employment in their field.

Program Fees:

- There are *no fees* associated with the Job Search and Workplace Communication Training components of the program.
- The fee for the Project Management component is \$400. This fee offsets the academic portion of the program.
- All books and materials are included or available on-loan to participants at no additional cost.
- All other costs related to the program and employment services are generously funded by the Government of Ontario and the Government of Canada. The fee represents a small proportion (approximately 10 per cent) of the overall cost of the program.

Engineering Connections

“It was very beneficial to connect with other engineers and to be able to share experiences.”
