# The Host Program 新移民輔導計劃

*The Host Program... A friendship that  
makes a world of difference!*

### What is the Host Program?

Every year, Canada welcomes newcomers from all over the world. But the early days after arrival can be very challenging.

The Host Program provides opportunities for newcomers and established Canadians to come together and learn about – and from – each other. Some of these opportunities take the form of individual or family “matches.”

### What Do Host Volunteers Do?

As a Host volunteer, sometimes called “host,” you will be matched with a newcomer, based on criteria such as gender, age, and shared interests. You and your new friend will commit to getting together regularly, usually once a week. Some of the things you may do or talk about are:

- Social and recreational activities
- Daily living (shopping, banking, using local services etc.)

### Benefits of Volunteering in the Host Program:

Volunteers often join the Host Program because they want to give.

### How to Become a Host Volunteer:

To become a “host” to a newcomer, you should be able to volunteer for about 2 hours a week, for 6 months to a year. Host Program staff will provide information, training and support at all times.
